

# Pathway to Success

April 2019

## A Rapid Accomplishment

Demalla came to Pathway to Success (PTS) with only two months of CalWORKs remaining. She graduated from Solano Community College in December 2018, where she had been employed in a work-study position. Now that she was no longer studying at the college, she no longer qualified for the position.

Demalla enjoyed making friends with supportive classmates throughout the workshop series. She appreciated the guidance from her workshop facilitator and placement coach. "I made friends the first day there. I think this is a great program and they do their best to help people."

Although Demalla had been called to interviews twice before being assigned to PTS, she did not receive any job offers. She felt that the behavioral questions were where she struggled. She practiced interviewing with her facilitator and became more comfortable with answering these types of questions. "I learned how to do a 30-second elevator speech and also how to answer behavior questions in an interview."

After moving into Job Search, Demalla received two more invitations to interview. She applied the interview techniques that she learned and soon after, received job offers for both positions.

In February 2019, Demalla started subsidized employment as a receptionist with a childcare facility in Fairfield. She was most excited about this opportunity because she would use the experience she gained through her work-study program combined with her love for children.

The PTS team is so happy for Demalla's growth and rapid accomplishments and wishes her all the best in her future endeavors.
